

## Range Introduction

Foam for Comfort offer four mattress ranges in various comfort options to suit every individual.

All of our mattresses are available in any size or shape and finished in our exclusive organic cotton cover.

You can obtain prices and order online using the cost calculator found on our website (details below).

### Serene Reflex Mattress

Ideal for Home or Leisure and available in any size or shape. We offer two comfort options, Medium or Firm and mattresses are finished in a good quality Organic cotton covering fabric.

Suitable for regular nightly use and offering great value for money. Popular for spare beds, sofa beds, children's beds, bunk beds, caravan and boat beds.

### Serene Reflex Comfort Options

#### Medium

Comfortable durable but still supportive, perfect for lighter adults and children.

#### Firm

Firm supportive comfort at any thickness, perfect for Sofa & Spare Beds, especially suited to applications where thickness is restricted to 10cm (4") or less.

### Choosing the perfect mattress

First consider the quality required, this usually depends on whether the mattress is to be used on a regular or occasional basis and by whom.

Make sure that the mattress you select is a suitable thickness for your bed base.

Also consider your weight. A well-built adult or child may require a firm mattress. Finally, don't forget to measure your bed. Even standard beds vary in size. If in doubt please call our expert sales staff for advice.

Please use only as a guide. Comfort is a very subjective for more advice please call our expert sales staff.

### Luxury Reflex Mattress

Long lasting durability and comfort, wide range of comfort options and available in any size or shape. Suitable nightly use, these mattresses offer excellent durability and are finished in our exclusively designed luxury quilted organic cotton fabric.

With comfort options of Soft, Medium, Firm and Extra Firm and no limitations in size or shape, we can design and manufacture your mattress to fit where you need it and to suit the comfort you require.

### Luxury Reflex Comfort Options

#### Soft

Offering soft luxurious comfort. Perfect for lightweight customers. (less than 10 stone). This mattress offers little resistance.

#### Medium

Provides a good level of support. Ideal for those of average to light weight. (approx 12 stone).

#### Firm

A very supportive mattress with a medium / extra firm layered construction, offering firm support but with a little luxury. Suitable for all weights.

#### Extra Firm

Perfect for customers looking for a mattress that has very little give and allows them to lay totally flat. Suitable for all weights.

### Choosing the perfect mattress

## Luxury Memory Mattress

Our unique three layer construction allows you to fully turn this mattress, increasing lifespan and comfort. Most manufacturers use a two layer construction to lower costs, however not turning the mattress will reduce comfort and lifespan in the long term.

The centre layer of this mattress is manufactured using our Luxury Reflex foam and it's this layer that provides support and comfort, this layer is available in a choice of four comfort options, Soft, Medium, Firm or Extra Firm. Vasco Memory foam is used for the two outer layers to provide pressure relieving comfort.

## Luxury Memory Comfort Options

### Soft

Offering soft luxurious comfort and excellent pressure relief, perfect for lightweight adults and children.

### Medium

Provides a good level of support and comfort. Popular with customers of an average weight looking for a supportive, pressure relieving mattress.

### Firm

A firm, supportive mattress created from five layers. Two outer layers of memory foam, two inner layers of medium foam and a core of extra firm foam.

### Extra Firm

A very firm core that offers little compression with outer layers of Vasco memory foam. Ideal for those who want to lie flat but need some pressure relief.
