Polyester Fibre Wraps

Polyester fibre wraps enhance the finished appearance of your cushions, lifting the cushion centre and softening angular lines, providing that plump “overstuffed” appearance.

We highly recommend Polyester Fibre Wraps when replacing loose feather or fibre filled cushion interiors. Polyester Fibre Wraps are also useful in helping to prevent the saddling of leather covers.

Stockinette Undercovers

Our high quality sewn Stockinette Undercovers are designed to enable the easier fitting of your outer covers and to reduce friction between the outer cover and the cushion interior, this increases the lifespan of the outer cover and helps prevent creasing as it allows the cover to return easily to its original position after use.
